

Using Resources

Need help?
Contact: support@kit.com

The **Resources** page is where you can find helpful documents. These are free to download and use at any time.

The screenshot shows the Kit Resources page. At the top left is the Kit logo. A search bar (C) contains the text 'Search for resources'. To the right of the search bar are icons for a document, a folder, and a printer. Further right are a message icon (E) with the number '1' and a profile icon (F) with the initials 'JW'. Below the search bar is a 'Resources' navigation button (G). On the left side, there is a 'Filter Resources' section (B) with a 'Topic' dropdown menu set to 'All'. Below the filter is an 'About' section with text explaining that resources are useful materials available for viewing, searching, and browsing. It also provides instructions on how to click on resource names or card actions to reveal more options like downloads. The main content area (A) displays a list of resource cards. Each card includes a title, the date it was last updated, the file size, and a 'Download' button (D). The resources listed are: '5 Questions to Ask Families' (1.77 MB), '5 Questions to Ask Families In Action' (64.4 MB), 'Apoyando el Desarrollo Emocional Nino Pequenos' (978 KB), 'Attention Getters' (6.9 MB), 'Behavior as Communication' (12.9 MB), and 'Building Strong Teams' (14.5 MB).

- A. Resources.** Scroll through the list of resources to find those of interest. New titles will appear at the top.
- B. Filter Resources.** Find resources about a particular topic.
- C. Search Resources.** Find resources by their title.
- D. Download.** Download and use as many as you like.
- E. Messages.** A number will appear when you have unread messages. Click to read. This icon appears on most pages of the Academy.

- F. Profile.** Click to view and edit your profile. This icon appears on most pages of the Academy.
- G. Navigation button.** Click to open the menu and move to other pages of the Academy. This button appears on most pages of the Academy. The label tells you what page you are currently on.
